

To: Provost and Executive Vice Chancellor, State University of Alaska Anchorage
Monique M. Morrow
UAA Governance Office
From: UAA Faculty Senate Resolution on Enrollment Management

On February 13, 2003, the Faculty Senate approved the following resolution following management's proposal forwarded by the Faculty Executive Board:

WHEREAS decisions on enrollment management have increasingly centralized away from departments and toward central offices; and

WHEREAS department faculty have not been consulted for their expertise in courses and programs relevant to effective enrollment management; and

WHEREAS many enrollment management decisions are made exclusively by administrators with little consultation with faculty; and

WHEREAS the impact of enrollment management on curriculum and instruction is significant; and

WHEREAS faculty teaching cancellations are being used as an alternative teaching assignment with very little preparation;

WHEREAS student learning and retention are being curtailed by a lack of faculty involvement in decisions about which classes to offer each semester; and

WHEREAS students are confused by the cancellation of classes at the last minute; and

WHEREAS students' frustration with the enrollment problem has continued to grow, thus making the problem worse; and

WHEREAS faculty morale, retention, and knowledge that they have a voice in enrollment decisions are being affected by the impact of the decision on their students;
